Skills

- **Technical Skills**: C++, C, Python, Java
- **Frameworks**: Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn
- **Web Technologies**: HTML, CSS
- **Tools/Platforms**: Jupyter Notebook, Excel, Power BI
- **Soft Skills**: Problem-Solving, Time Management, Team Collaboration, Creativity, Work Ethic

Projects

- **SnapTrack – Version Control System**: February 2026
  - Created a lightweight control system inspired by Git to track file changes, manage commits, and support branch-based workflows through an interactive web interface.
  - Implemented core version control functionalities including repository initialization, file staging, commit history tracking, branch creation, and undo/redo operations using efficient data structures.
  - Integrated a browser-based dashboard with a Crow C++ web server to enable visualization of commit history and seamless interaction with repository operations.
    Tech Used: C++, Crow C++ Framework, HTML, Data Structures (Linked Lists, Stacks, Trees), REST APIs

- **Rapido Ride Analytics**: December 2025
  - Built an interactive Power BI dashboard to analyze Rapido ride data across multiple vehicle types, focusing on bookings, revenue, distance travelled, and customer performance metrics.
  - Performed data cleaning, transformation, and modeling using Power Query and created DAX measures to enable dynamic calculations and filter-based insights.
  - Visualized key trends in vehicle-wise revenue, booking patterns, payment methods, and customer behaviour using KPI cards, charts, and slicers to support data-driven analysis.
    Tech used: Power BI, Power Query Editor, DAX, Microsoft Excel

- **EDA with Spotify Streaming History**: March 2025
  - Analyzed Spotify streaming history to understand listening habits, top artists, and time-based trends.
  - Performed data cleaning, preprocessing, and exploratory data analysis using Python, Pandas, NumPy, and Matplotlib to extract behavioural patterns.
  - Identified key user listening trends and visualized insights that highlighted music preferences and streaming behaviour.
    Tech Used: Python, Pandas, NumPy, Matplotlib

- **PANCH PHORON (Food Blogging Website):** November 2023
  - Generated an interactive food blogging website showcasing authentic Bengali recipes with an engaging user experience.
  - Structured visually appealing web pages using HTML and CSS, and added interactive JavaScript features to enable smooth navigation across modules.
  - Deployed a functional and user-friendly recipe website that highlights traditional Bengali cuisines with improved readability and seamless browsing.
    Tech Used: HTML, CSS, JavaScript

Internship

- **SKILLCRAFT TECHNOLOGY** June 2025 – July 2025
  Data Science Intern
  - Successfully completed four end-to-end data analytics and machine learning projects using Python, covering data collection, preprocessing, analysis, visualization, and model building.
  - Performed population growth analysis and accident data visualization using Pandas, NumPy, Matplotlib, and Seaborn to uncover trends, patterns, and actionable insights.
  - Developed and evaluated a Decision Tree classifier using Scikit-learn, implementing feature selection and model evaluation techniques to improve prediction accuracy.
    Tech used: Python, Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn

TRAINING

- **Basics of Data Structures and Algorithms-** Centre for Professional Enhancement LPU July 2025
  - Assembled an online quiz system with real-time leaderboard tracking.
  - Used Python Flask, SQLite, HTML, CSS, and JavaScript to develop login, quiz, scoring, and dynamic leaderboard functions.
  - Created a smooth, user-friendly platform that updates rankings instantly and displays results clearly.
    Tech Used: Python, Flask, SQLite, HTML, CSS, JavaScript

CERTIFICATES

- Deloitte Australia Data Analytics Job Simulation on Forage November 2025
- Cloud Computing-NPTEL April 2025
- Web Development (Live) by Rising Tech Pro March 2024
- Workshop on Web Development by IIT ROORKEE November 2023
- Introduction to JavaScript by Great Learning November 2023

EXTRA CURRICULAR

- Worked with NGO- CDP June 2024
- Participated in Synergy Workshop November 2023

EDUCATION

- **Lovely Professional University** Punjab, India
  Bachelor of Technology - Computer Science and Engineering; ***CGPA: 7.48*** *Since August 2023*

- **Barlow Girls' High School** Malda, West Bengal
  Intermediate; ***Percentage: 89%*** *March 2022 - March 2023*

- **Barlow Girls' High School** Malda, West Bengal
  Matriculation; ***Percentage: 91%*** *April 2020 - March 2021*
